MY DEAR SIR:

Chicago, for the year 1920.

REPORT OF THE PRESIDENT

To MEMBERS OF THE
BOARD OF TRADE OF THE CITY OF CHICAGO

GENTLEMEN:

Herewith I respectfully submit the annual report of your Board of Directors, of the several departments of the Board and of the various committees.

In spite of a very light movement of grain to this market during the year 1920, which has caused losses in the Weighing and Custodian and Sampling Departments, this Association is in a healthy financial condition, with ample funds on hand for all current necessities.

FINANCIAL

During the year the Board of Directors has cancelled all bonds which it has been possible to purchase. The amount of cancellation during the year was \$35,700. This leaves outstanding in the hands of the public, Board of Trade bonds in the total par value of \$514,300. As the funds provided by our rules for the cancellation of bonds could not be invested in our own bonds, we have purchased United States Liberty Bonds to employ these funds profitably and to insure the retirement of our own bonds as they become available. It is likely that the funds available for the retirement of bonds will be sufficient to retire the entire issue at or before the time of maturity.

GENERAL CONDITIONS

Lack of adequate transportation during the first half of the year and indisposition on the part of holders to market during the last half of the year have resulted in smaller receipts of grain at this market during the past year than has been witnessed in many years.

The year 1920 will go down in history as one of the most trying from a business standpoint that has ever been witnessed, and in this period of readjustment the grain trade has not escaped. There have, however, been no failures among our cash handlers in spite of these trying conditions.

The year has been featured by the reopening of our wheat market following the period of Government control, upon the insistent demand of the trade throughout the country. The trade was at the time warned that it

would be impossible to immediately reestablish the trading on the basis of full insurance protection to the cash handler, but material progress towards normal markets has been made. The declines which were registered in our market have brought us attacks from those who have failed to recognize the declines as in response to general economic conditions and has brought an official investigation by the Federal Trade Commission as to causes for the declines. It is a satisfaction to know that among the seven causes outlined by the Federal Trade Commission, future trading was not even mentioned as a contributing cause. The long-awaited report of the Federal Trade Commission with regard to the whole system of grain marketing has not yet made its appearance. The problems of marketing are being actively taken up by organizations of producers, but so far no definite plans have been announced.

Not only the Officers and Directors of the Association but every member of the Board may well give his attention to methods of improving the service to determine whether any constructive improvement can be adopted.

Federal regulation of a war-time emergency has ceased and no excuse should be given for any renewal of Government regulation during times of peace.

Our contracts for future delivery have been carried out throughout the year without any serious incident leading to defaults and with the minimum of policing under the war emergency rule. The fact that our contracts for the final month of the year were carried out without resorting to any of the police powers which you have given to the Board of Directors, should be evidence that the machinery is again functioning normally and will continue to do so.

As our year closes, we as Officers and Directors wish to thank you for the confidence you have reposed in us and for the cooperation you have given your officers under unusually trying conditions.

LESLIE F. GATES,
President.

REPORT OF LEGAL DEPARTMENT

WILLIAM E. HUDSON, Chairman

The suit brought by Edward Francis, as executor of Thomas Walters, against the Board in the Circuit Court of Cook County to prevent the transfer of the membership of Wilson F. Henderson until an award in favor of a non-member against Henderson was settled, has been dismissed.

In March last, the Wabash Railroad Company instituted a suit against B. S. Wilson and the Board of Trade, and secured an *ex parte* temporary injunction restraining the Board from transferring the membership of Mr. Wilson; but this suit has now been dismissed as to the Board of Trade.

In bankruptcy proceedings instituted in the Federal Court at Chicago Wilson F. Henderson has been adjudged a bankrupt, and the Trustee in bankruptcy has instituted proceedings in that court to have his membership adjudged an asset in bankruptcy free from the claims of a number of members of the Board, who are creditors of Lipsey & Company, of which Mr. Henderson was the principal executive officer. A plea to the jurisdiction of the bankruptcy court has been interposed by the Board and the question of jurisdiction has been argued, and is now under advisement by Judge Landis.

In the suit instituted by W. A. Thomson of Louisville, Ky., in the Municipal Court at Chicago against Thomson & McKinnon, his brokers, because of their settlement, contrary to his instructions, of contracts for 20,000 bushels of corn, deliverable in July, 1917, at the settling price established under the resolution of the Board of Directors on July 5, 1917, and in which the trial court sustained the power of the Board to adopt that resolution, Mr. Thomson perfected an appeal to the Illinois Supreme Court upon the ground (among others) that the action of the Board in forcing the settlement of his contracts before their maturity violated the State and Federal Constitutions, in that it impaired the obligations of his contracts. The Supreme Court has rendered a decision that the action of the Board did not impair the obligation of his contracts within the contemplation of the constitution, and has remanded the case to the Appellate Court at Chicago for the decision of the other questions raised by Mr. Thomson's appeal.

In a proceeding before the Interstate Commerce Commission, in which the Western Union Telegraph Co. and one of its patrons were originally the only parties, a tentative report was made by one of the examiners, recommending that the existing immunity from liability for negligence in the case of unrepeated messages be, as respects interstate messages, annulled, and that the liability for unrepeated messages be limited to \$50, and for repeated messages to \$150. The Commission, deeming this a question in which the general public is interested, ordered a further hearing, and this Board, thinking the question one in which all Exchange members were much interested, induced the New York Stock Exchange, the New York and New Orleans Cotton Exchanges, and practically all the grain exchanges of the country, the Chicago Live Stock Exchange, and other business organizations, to join in employing our attorney and in intervening in the proceeding for the purpose of securing, if not an unlimited liability, at least a much enlarged liability as respects commercial messages. After further evidence and the filing of a brief by our attorney, a second tentative report was filed recommending that the liability on unrepeated messages be placed at \$500, and on repeated

messages at \$5,000. To this our attorney objected as not going far enough, and this question was argued before the full Commission on the 10th of December, and a decision may be expected within the next few months.

The Chas. R. McLain Brokerage Co. has been conducting a system of bucket shops with its main office at Denver, and a number of branch offices in Colorado, and was found to be stealing the quotations of this Board. On the 29th of November, a suit was instituted by the Board in the Federal Court at Denver to enjoin the further use of our quotations.

No other suit has been instituted during the year by or against the Board, and there has been no other occasion for a suit to protect our quotations.

TRANSPORTATION DEPARTMENT

E. A. DOERN, Chairman

Federal control of the railroads ceased March 1, 1920, but the Transportation Act of 1920 authorizing the termination of Federal Control made provision for the same guaranty of compensation by the United States to the railroads until September 1, 1920, as was allowed them under the Federal Control Act.

Some other provisions of the Transportation Act of 1920 important to this Board were:

(a) Loans to the railroads from a Federal fund of \$300,000,000 for use in meeting maturing indebtedness, providing equipment, or other additions and betterments.

(b) Empowerment of the Interstate Commerce Commission to adopt a plan for the consolidation of the railroads of the United States into a limited number of systems.

(c) Establishment of a Railroad Labor Board as a means of peaceful adjustment of controversies between the railroads and their employes.

(d) Enlargement of the power of the Interstate Commerce Commission to prescribe minimum all-rail rates, as well as maximum rates.

(e) Requirement that all the rates in force February 29, 1920, should continue until September 1, 1920, unless changed with the approval of the Interstate Commerce Commission.

(f) Instruction to the Interstate Commerce Commission to establish and adjust rates so that the railroads as a whole would earn an annual net operating income equal to a fair return upon the aggregate value of railway property used in the service of transportation. During the two

years beginning March 1, 1920, the Commission is required to base such fair return on $5\frac{1}{2}$ per cent of the aggregate value, and, at its discretion, may add one-half of one per cent to provide for new railway equipment and improvements.

I. GENERAL PERCENTAGE INCREASES IN FREIGHT RATES

Pursuant to the foregoing provision (par. f) in the Transportation Act of 1920, the Interstate Commerce Commission instituted a general hearing to determine what increases in freight rates were necessary to provide a fair return to the railroads. The decision of the Interstate Commerce Commission in this case allowed, effective August 26, 1920, varying percentage increases in interstate freight rates, the details of which were reported in our bulletin 509, August 18, 1920. The increase granted in the territory east of the Mississippi River and north of the Ohio River was forty per cent. This was greater than allowed in any other part of the country.

On Illinois intrastate shipments, the State Public Utilities Commission authorized $33\frac{1}{3}$ per cent increase. Subsequently, the State Commission raised the increase to 35 per cent. The latter will take effect January 2, 1921. It is not known whether the Illinois railroads will press further their claim for an increase of 40 per cent on Illinois intrastate shipments, in order to equal the increase granted them on interstate shipments.

II. RATES ON GRAIN AND GRAIN PRODUCTS FOR EXPORT

The effect of the decision by the Interstate Commerce Commission which increased the rates in the East a greater percentage than in the West and South was to widen the spread more than ever before between the export rates to the Gulf ports on the one hand, and the Atlantic ports on the other.

The present grain rates to Baltimore are greater than to the Gulf ports by 14 cents per 100 pounds from Kansas City; 13 cents from Omaha, St. Louis, Southern Iowa, and Missouri; and 8 cents from Central Illinois. For many years prior to the war, the agreed Gulf port differentials under Baltimore were materially less than now prevail. The present rate adjustment is so unsatisfactory that this Board, in conjunction with other western grain exchanges, millers, and the Atlantic port exchanges, petitioned the railroads to reduce the Atlantic port rates, so as to make the grain rate differentials to Baltimore over the Gulf ports 8 cents per 100 pounds from Kansas City; 7 cents from Omaha, St. Louis, Southern Iowa, and Missouri; and 4 cents from Central Illinois.

As the railroads cannot agree among themselves on a plan to satisfy the shippers' request, it was decided only very recently that the railroads and the shippers would jointly lay the matter before the Interstate Commerce Commission informally at a conference to be arranged for early in January, 1921.

III. EX-LAKE GRAIN RATES FROM BUFFALO

In September, 1918, the United States Railroad Administration reduced the rates from Buffalo to Eastern points on grain via the lakes from Lake Michigan ports, two cents per 100 pounds.

No reduction was made in the rates on grain from Lake Superior ports. This situation continued until June 1, 1920, on which date the rates on Lake Michigan grain were advanced to the basis applying on Lake Superior grain. The grain interests of Chicago, Milwaukee, and New York requested the Interstate Commerce Commission to disallow this two cents per 100 pounds increase on Lake Michigan grain, but the request was not granted. On August 26, 1920, the Ex-Lake grain rates were further increased 40 per cent. As the Ex-Lake rates had then become so high as to preclude shipment via the Lakes, this Board, and others favoring our contention, petitioned the Interstate Commerce Commission to lower them. Conferences immediately followed with the Commission and the railroads which resulted in the prompt establishment on September 1, 1920, of new rates which were increases over the August 25, 1920, rates of 25 per cent in export and 30 per cent in domestic rates. These reduced rates will expire February 28, 1921. New negotiations must be instituted for their continuation beyond February 28, 1921, or for the establishment of other rates from Buffalo which will not prevent the use of the Lakes for grain shipments.

IV. GRAIN RATES FROM THE NORTHWEST

The question of fairly aligning the rates on grain from the Northwest states to Chicago, Milwaukee, Minneapolis, and Duluth, which at the time of writing our last annual report had been referred by the United States Railroad Administration to the Interstate Commerce Commission, was decided early in 1920 by the Commission favorably to the contentions of this Board on the main points of the controversy. The rates then recommended by the Commission were published to take effect February 28, 1920, and they have since continued in force, subject to the general increase of 35 per cent which occurred August 26, 1920.

XXVIII

V. MINIMUM WEIGHTS ON GRAIN

The so-called car capacity minimum weight rules on grain, established during Federal Control, have been renewed by the railroads from time to time under permissive orders of the Interstate Commerce Commission. Because of the shippers' dissatisfaction with these rules, the Commission held a hearing in November, 1920. At that hearing, this Board, the Milwaukee Chamber of Commerce, and the representative of country shippers jointly submitted, for the consideration of the Commission and the railroads new minimum weight rules together with some necessary auxiliary rules which, as a whole, would obviate the penalties the present rules impose on shippers, but which would still utilize the full grain-carrying capacity of cars. The Commission has adopted, with some modifications, nearly all of the rules suggested by the shippers, and has recommended that the railroads substitute them on January 1, 1921, for the present rules. The new rules were given in detail to the members of this Board in Bulletin 518, December 8, 1920.

VI. PROPOSED INCREASED DEMURRAGE RATES

There was published, to take effect December 1, 1920, for account of all the railroads in the United States, a tariff increasing the demurrage rates to \$3.00 a day for each of the first four days; \$6.00 for each of the next three days; and \$10.00 for each day thereafter. These rates were to take the place of the present rates of \$2.00 a day for the first four days, and \$5.00 for each succeeding day. Protests from many shippers throughout the Country were filed with the Interstate Commerce Commission and the various State Commissions against these increased demurrage charges taking effect. The Interstate Commerce Commission and the State Public Utilities Commission of Illinois have suspended the tariff. Hearing before the Interstate Commerce Commission has been set for January 10, 1921, at Chicago. This Board was one of the protestants, and will appear at the hearing in opposition to the proposed increases.

VII. BILLS OF LADING CONDITIONS

The Interstate Commerce Commission in 1919 issued an order prescribing the terms and conditions of both domestic and export bills of lading, following hearings extending over a period of six or seven years. The order was acceptable to the grain trade. Suit was instituted by the railroads to enjoin the Commission from enforcing its order. The lower Court sustained the railroads' position, and the case was appealed to the Supreme Court of the United States. That Court dismissed the petition

XXIX

without determining the question of the Commission's jurisdiction over the matter of bills of lading conditions; the Court giving as its reason the fact that the case had been rendered moot by the passage of the Transportation Act of 1920.

Thereafter the Commission began new hearings, the last of which was held in Chicago, December 16, 1920. Briefs are due on February 1, 1921. Oral argument before the Commission will probably follow soon after the filing of briefs, and the Commission's further order should be forthcoming within a few months.

IN GENERAL

The increases in the rates on grain, grain products, and other farm produce, made during the past three years, have in most instances been on a percentage basis. The amount of the increase not being the same in all sections of the Country, the former equalization of markets was disturbed. The principal rates were in time readjusted, but frequently with an increase in the spread between the various markets. The greatest disturbance was in the export rates mentioned in the second section of this report.

Some minor rate questions are still unsettled, but they are in hand, and earnest efforts are being made to better them.

Many other matters, not all directly involving transportation or other charges, have had the attention of this Department during the past year.

The harassments incident to the Switchmen's strike, lasting five months in the Chicago district, followed so closely the transition from Federal control to private operation of the railroads that not until the last quarter of 1920 were the Chicago shippers able to secure prompt and adequate service. The decline in the general business activity of the Country has contributed materially toward the restoration of normal transportation service.

Respectfully submitted,

J. S. BROWN,
Manager.

REPORT OF GRAIN COMMITTEE—YEAR 1920

J. J. FONES, Chairman.

Your Committee regrets to report that the Department was operated at a loss during the year owing to small arrivals in the market. The very small receipts of wheat was particularly trying as at this time the force is at its maximum in preparation for the substantial business which usually comes at that time. Late in the season charges were increased slightly and the force reduced, so in November the losses were not as great as previously and December will probably show very little, if any, loss.

Relations with the State have been most cordial. We have found the Chief Inspector and his aides ready and willing to do everything that was possible to further the work.

The Chief Sampler, Mr. James A. Noble, who has been in charge a year, has proved himself eminently qualified for the work.

Note.—We located causes for weight differences on 54 cars.

NUMBER OF CARS RECORDED LEAKING

Received cars, 18,478, or 18.5 per cent of the total inbound cars weighed, as compared with 15.2 per cent found leaking in 1919. Shipped cars, none, which shows that the coopering of the outbound cars was satisfactory to the department.

SCALES TESTED

At interior or country loading stations, 21 scales. Of these, 15 or 71.4 per cent were found weighing incorrectly. At Chicago, 603 scales were tested of which 133, or 22.05 per cent were in need of repairs or adjustment.

Note.—The tests we made at country points were, in large part, made because of discrepancies in weights, therefore, the percentage of scales found incorrect, as shown by our report, is not representative of scale conditions at initial shipping stations.

STEALING GRAIN FROM CARS IN RAILROAD YARDS

Number of people arrested as a result of the department's activities and investigations, 114. Of these, 62 were fined, 29 were paroled, and 23 were discharged with warnings from the court.

CUSTODIAN DEPARTMENT

Wheat.....	13,681,512 Bu.
Corn.....	32,832,828 Bu.

REPORT OF REAL ESTATE COMMITTEE
LOUIS C. BROSSEAU, Chairman

CHICAGO, January 3, 1921.

To THE BOARD OF DIRECTORS OF THE
 BOARD OF TRADE OF THE CITY OF CHICAGO,

GENTLEMEN:

Your Real Estate Committee has, during the past year, made sundry repairs as outlined in its report a year ago, viz.: the tuck pointing of the masonry; metal weather strips on the windows; new controllers for the elevators and installation of a new freight lift.

As recommended by your Budget Committee last year, the rents were increased throughout the building 33½ per cent, which was estimated would about cover increased cost of operation and maintenance, and also an increase of about 50 per cent in the taxes. This estimate proved approximately correct as net returns show a small increase over last year. It is our expectation that a still better showing can be made in 1921. Your committee is pleased to report that every office in the building is rented.

Any corporation which now is, or which may hereafter become a member of the Clearing House of the Board of Trade of the City of Chicago, may, in the discretion of the Board of Directors, be suspended from the privileges of such membership upon the recommendation of the Clearing House Committee, after a proper hearing: provided such recommendation is approved by at least twelve affirmative votes of the Board of Directors. No corporation shall be admitted to or have at any time the privileges of the Clearing House of the Board of Trade of the City of Chicago, unless two executive officers of such corporation are members of this Association in good standing, and are the bona fide owners of a reasonable amount of the stock of such corporation. The Board of Directors shall require each and every corporation transacting business in its own name on the Board of Trade to file in the office of the Secretary of the Board, on or before the thirty-first day of January in each year, a statement of the affairs of such corporation upon the first day of said month, which statement shall show the amount of said capital stock which has been paid in cash, and shall give a financial exhibit of the affairs of the corporation, which statement shall be sworn to by two executive officers, members of this Association. Every corporation must file with the Secretary of the Board of Trade of the City of Chicago a copy of its by-laws, or resolution of its directory, showing the authority of such officers to transact its business on the Exchange.

The Board of Directors may also require, at any time during the year, such a statement from such corporation, and upon a petition asking for such statement as to any such corporation by twenty-five (25) members of the Association, shall require the same to be filed forthwith; such statement shall be open to inspection only of members of the Association.

Whenever any such statement shall show that the capital stock of any corporation has been impaired or reduced in fair cash value below the amount named in its original application, the Board of Directors may, in its discretion, upon the recommendation of the Clearing House Committee, suspend such corporation from the privileges of the Clearing House until such impairment has been made good; provided such recommendation is approved by at least ten affirmative ballots of the Board of Directors.

No firm, or individual, shall be admitted to the privileges of the Clearing House without the approval of the Board of Directors of

the Board of Trade of the City of Chicago. Any firm, or individual, which now is or which may hereafter become a member of the Clearing House of the Board of Trade of the City of Chicago may, in the discretion of the Board of Directors, be suspended from the privileges of such membership upon the recommendation of the Clearing House Committee, after a proper hearing, provided such recommendation is approved by at least twelve affirmative votes of the Board of Directors.

Qualifications of firms for membership in Clearing House No firm shall have, at any time, the privileges of the Clearing House of the Board of Trade, unless every member of such firm is a member of this Association in good standing.

Insolvency. SEC. 31. When any member of this Association, knowing himself, or the firm in which he is a partner, or the corporation of which he is an executive officer, to be in an insolvent condition, shall make any contract on his own account, or on account of such firm or corporation, under the rules of this Association, whereby pecuniary loss shall result to any other member, or to any firm or corporation entitled to transact business on this Exchange, he shall be suspended or expelled at the discretion of the Board of Directors; or, when any member of this Association, knowing himself, or the firm in which he is a partner, or the corporation of which he is an executive officer, to be in an insolvent condition, shall accept on his own account, or on account of any such firm or corporation, any money or security or securities as margins from any customer on any trade or trades made under the rules of this Board, whereby pecuniary loss shall result to the person, firm or corporation depositing such margins, such member shall be suspended or expelled at the discretion of the Board of Directors.

To arrive grain. SEC. 32. All wheat, corn, oats and rye purchased subject to Chicago Board of Trade weights or Chicago inspection, by a member or members of this Association, at points outside of Chicago, for shipment to this market (the term "this market," as used herein, including all places where Chicago inspection or weighing prevail) shall carry, in addition to all other charges prescribed by the rules of this Association, a charge of one per cent on wheat, corn, rye and oats, except when the same amounts to less than one cent per bushel on wheat and rye, $\frac{3}{4}$ c per bushel on corn and $\frac{1}{2}$ c per bushel on oats, in which case one cent per bushel on wheat and rye, $\frac{3}{4}$ c per bushel on corn and $\frac{1}{2}$ c per bushel on oats shall be the minimum charge in case the purchase is made from a non-member. On purchases made from a member, a minimum of $\frac{3}{4}$ of one per cent on wheat, corn, oats and rye shall be charged, unless same amounts to less than $\frac{3}{4}$ c per bushel on wheat and rye, $\frac{1}{2}$ c per bushel on corn and $\frac{3}{8}$ c per bushel on oats, in which case $\frac{3}{4}$ c per bushel on wheat and rye, $\frac{1}{2}$ c per bushel on corn and $\frac{3}{8}$ c per bushel on oats shall be the minimum charge. When the charges are made on a percentage basis they shall be reduced to the greatest fraction that is a multiple of one-eighth. In computing this charge all fractions of less than one-eighth shall be ignored. These charges are established to cover all incidental expenses incurred in handling and financing such grain at this market, and accordingly this rule shall not be applicable to such grain purchased from a member of this Association, in business at Chicago, who finances and attends to the arrival, the delivery, the collection and accounting of and for such grain. In order to facilitate the transaction of all business governed by this rule, the Board of

Directors shall establish and maintain during a part or the whole of each day upon which the exchange is open for business, a place where buyers and sellers of wheat, corn, oats and rye to arrive may gather and freely buy or sell or offer to buy or sell the various commodities traded in thereon. The Board of Directors are further empowered to establish all necessary and proper regulations governing the terms and conditions upon which said trading shall be conducted both during and after the close of such market. After the close of the regular market, any member, upon proper record being made of the same, may purchase or offer to purchase, wheat, corn, oats or rye for shipment to this market at any price said member may see fit to bid, provided such bid shall allow the aforesaid charges. Such purchases shall be deemed to be subject to such Internal Revenue or other Government tax, if any, as may be incurred on the property by the buyer.

The intent of this rule is that all sales of wheat, corn, oats or rye made in accordance therewith shall be filled by the delivery of grain billed direct from the country point of origin to the seller at this market. Whenever the seller of such grain, prior to its arrival in Chicago, shall furnish to the buyer thereof the number of the car, or cars containing said grain, the grade established by the State Inspection Department of Illinois shall be final between the seller and buyer at this market. In case the seller shall neglect or refuse to supply said information to the buyer prior to the arrival of the grain at this market, then the buyer upon delivery thereof shall have the right to appeal from the decision of said Inspection Department to the Grain Committee of this Association.

This rule has been enacted to secure a broad, open and competitive market for the commodities traded therein, and any member of this Association transacting business in his own name, or firm, one at least of whose partners is a member of this Association, or corporation, one at least of whose executive officers is a member of this Association, who shall wilfully purchase or offer to purchase any such grain for shipment to this market on a basis which shall not allow the aforesaid charges, shall, upon conviction, be subject to such discipline as the Board of Directors may elect to impose.

SEC. 33. The employment by members of all persons soliciting ~~Solicitors.~~ orders for the purchase or sale of property for future delivery upon this Exchange, or for the purchase or sale of property to be shipped to this market, or, for the consignment of property to this market for the purpose of sale, or, for the disposition in any manner of property dealt in upon this Exchange, shall be in accordance with regulations established and promulgated by the Board of Directors. All persons soliciting the business above described shall be divided into two classes first, "Solicitors," second "Brokers." Solicitors, whether members of this Association or not, shall include all persons who give their entire time and services to one employer at a fixed salary. A broker under this rule must be a member of this Association who solicits purchases of grain at points outside of Chicago for shipment to this market. A non-member of this Association may be employed as a solicitor only, and not as a broker, whereas a member of this Association may either be a solicitor or a broker, but having elected to act in one capacity, he shall not be permitted at the same time to act in the

other. All solicitors, whether members or not, shall be employed by but one employer at the same time and shall receive for their services no other compensation whatsoever than a fixed salary which shall not be changed oftener than once in six months. A broker under this rule shall be entitled to receive on all grain purchased for the principal a compensation of one-eighth ($\frac{1}{8}$) of one (1) cent per bushel and none other. "Provided, however, that when the selling prices at Chicago are above \$1.50 per bushel for wheat, \$1.25 per bushel for corn and rye, \$1.00 per bushel for barley, and 75 cents per bushel for oats, he shall receive $\frac{1}{4}$ of one cent per bushel for wheat, corn, rye and barley, and $\frac{1}{8}$ of one cent per bushel for oats." This compensation, however, shall not apply on grain purchased from an individual, firm or corporation in the business of which the broker has any financial interest whatsoever, or from which he receives any compensation in the way of salary or otherwise, or upon grain shipped to this market upon consignment. No individual, firm or corporation enjoying membership privileges in this Association shall employ any person as such solicitor until such solicitor shall have been approved by the Membership Committee, nor continue such employment after having been directed by said Committee to terminate said employment. Provided, however, that a member-employer shall have the right of appeal from any such decision of the Membership Committee to the Board of Directors.

A member may solicit consignments to this market from non-members and receive as compensation for such service one-eighth of one cent per bushel, "provided, however, that when the selling prices at Chicago are above \$1.50 per bushel for wheat, \$1.25 per bushel for corn and rye, \$1.00 per bushel for barley, and 75 cents per bushel for oats, he shall receive $\frac{1}{4}$ of one cent per bushel for wheat, corn, rye and barley, and $\frac{1}{8}$ of one cent per bushel for oats, and further" provided that he first file with the Membership Committee an application to be registered as a commission-participating solicitor, stating therein the member, firm or corporation for whom he will solicit: provided further, that such registration can not be for more than one member, firm or corporation at one time; provided further, that such participation shall not be permissible until the non-member consignor shall have notified in writing, on each shipment, the member, firm or corporation that such consignments are at the solicitation of the member so registered; nor shall it be permissible to solicit under this provision business from firms in which such soliciting member has any interest, or to solicit business from a member.

The broad intent of this rule is to give to members all the rights, privileges and preferences which membership in the Association justly and reasonably accord, and this rule shall be liberally construed at all times so as to effectuate this object.

When any member, firm or corporation, transacting business in their own name, is convicted by the Board of Directors of a violation of this rule, or any regulation thereunder, such member, or the members of such firm, or the officers or managers of such corporation, shall be subject to such discipline under the rules as the Board of Directors, in its discretion, shall impose.

SEC. 34. Whenever it shall appear to the Board of Directors that any member has formed a partnership with one or more persons, not members of this Association, and that thereby the interest and good repute of this Association may suffer, the Board of Directors may, after investigating the facts of the case, require said member to withdraw from such partnership; and if he shall fail to do so within a reasonable time to be fixed by the Board of Directors, he shall be suspended from all the privileges of this Association until he shall have severed his connection with such partnership.

SEC. 35. The Board of Directors is empowered to organize a department to be designated "Car Inspection Department of the Board of Trade of the City of Chicago"; to fix the fee for such service, and also to appoint the necessary officers and employees in connection therewith; to specify the duties to be performed in the management of said department, and to establish such regulations for the conduct and government of said department as, in the judgment of the Board of Directors, shall best promote its efficiency.

SEC. 4. A. The following rates of commission, being just and reasonable, are hereby established as the minimum charge that shall be made by members of this Association for the transaction of the business specified in this section:

B. For the purchase or for the sale, or for the purchase and sale, by grade alone, of wheat, corn and oats, to be delivered in store, either for immediate or for future delivery, one-quarter of one cent per bushel, in lots of 5,000 bushels and 1,000 bushels, and multiples thereof. Foreign rates, exclusive of the Dominion of Canada, five-sixteenths of one cent per bushel to non-members, and one-quarter of one cent per bushel to members.

C. For the purchase, or for the sale, or for the purchase and sale, by *grade alone*, of rye, barley or flaxseed, to be delivered in store, either for immediate or for future delivery, one-quarter of one cent per bushel.

D. For the purchase or for the sale, or for the purchase and sale, of lard, forty cents per 1,000 pounds.

E. For the purchase, or for the sale, or for the purchase and sale of pork, eight cents per barrel.

F. For the purchase, or for the sale, or for the purchase and sale of D. S. short ribs or D. S. extra short clears, forty cents per 1,000 pounds.

G. It is hereby provided that upon transactions specified in the foregoing paragraphs of this section (except transactions covered by "foreign rates") which are made for account of members of this Association, or for firms one of whose general partners is a member, or for corporations entitled under Section 8 of this rule to members' rates, one-half of the foregoing minimum specified rates shall be charged and shall be the minimum rates in such cases.

A member (meaning also a firm or corporation entitled under the rules to members' rates) may secure and turn over business in grain or provisions, for future delivery, coming under the provisions of this section, to the other members of this Association to be executed; and it shall be in order for the members executing such transactions, if so instructed by the party turning the business over to them, to render accounts therefor direct to the non-member customer, at non-members' rates, and to allow to the member turning the business over to them members' rates on the same, i. e. one-half of the foregoing minimum rates of commission; provided, that all such business shall be turned over free of all expense to the executing member.

H. It is further provided that to members who personally do their own buying and selling, but who clear their trades through other members, the minimum rates of commission on all transactions opened and closed *within ten days* shall be twenty-five cents per 1,000 bushels of grain, one cent per package of pork, and five cents per 1,000 pounds of D. S. short ribs, D. S. extra short clears, or lard.

I. It is further provided that the minimum rates of commission on all such trades *as are not actually closed within the prescribed limit of ten days*, shall be members' rates; but the clearing member may pay the principal the rates of brokerage prescribed in Section 2 of this Rule, as compensation for executing such trades. It is expressly understood that all such transactions shall be for the personal account of the member, firm or corporation for whom the trades are cleared, and in no case, directly or indirectly, on behalf of any other person, either wholly or in part.

Hence, if trades in grain are opened and closed within 10 days, the principal shall pay the clearing member (per 5,000 lot)..... \$1.25

If trades in wheat, corn or oats are opened, but not closed within 10 days, the principal shall pay the clearing member (per 5,000 lot)..... \$6.25

Less brokerage for both buying and selling (this paragraph only contemplates trades executed by the principal)..... 1.50 4.75

The same principle shall apply in construing commission rates to be charged for executing similar transactions in all other commodities dealt in under the rules of this Association.

J. Trades made under the foregoing paragraph, where one side of such trades only is executed by the principal, and the other side either by the clearing member or broker, whether closed within the prescribed limit of ten days or not, shall be subject to members' rates of commission, but the clearing member may allow the principal the minimum rates of brokerage on the portion of the trades executed by the principal. If a broker is employed to execute any portion of such trades, the party employing such broker shall pay the brokerage thus incurred, the minimum rates for such service being those prescribed in Section 2 of this Rule.

Hence, on trades made in wheat, corn or oats, whether opened and closed within 10 days or not, the principal shall pay the clearing member (per 5,000 lot). \$6.25

Less brokerage (one side being executed by the principal)..... .75 \$5.50

If closed either by clearing member, or broker employed by him, the principal shall pay the clearing member (per 5,000 lot)..... 5.50

If closed by a broker employed by the principal, the principal shall pay the clearing member (per 5,000 lot) (it being understood that the clearing member shall pay the broker)..... 6.25

The same principle shall apply in construing commission rates to be charged for executing similar transactions in all other commodities dealt in under the rules of this Association.

K. Members cannot clear through other members as contemplated in paragraphs H and J any trade that is not for their own account; but members receiving orders may execute them and turn over any resulting trades, with the name of the customer, to other members, in which case the latter shall pay the former the minimum brokerage rates as compensation for executing the order.

B. In no case shall the aggregate amount of brokerage allowed on any transaction be such that the net commission to members on such transaction shall be less than the minimum rates prescribed in Paragraph H, Section 4 of this rule, for clearing trades for members.

It is hereby provided that such deposits shall not be made with any bank or banks to which the party calling for the said security shall expressly object at the time of making such "call;" but in such case the deposit shall be made with some duly authorized bank not thus objected to, or with the Treasurer of the Association, as the depositor shall elect.

In case any member neglects or refuses to indorse a certificate of deposit to the party entitled to receive the money thereupon when all contracts upon which the deposit is applicable are settled, and all money due upon such contracts has been paid, he shall be liable to a penalty of one per cent. per day on the amount of such certificates, for every day such refusal or neglect is continued; and for refusal to promptly pay such penalty, the party may, upon due complaint, be suspended from all privileges of the Board until the same is paid. In case it should occur that by reason of changes in the market, or of delivery upon, or the settlement of a portion of the contracts upon which security has been deposited and to which such security is properly applicable under this Rule, that a larger sum remains on deposit than is contemplated by Section 1 of this Rule upon then existing unadjusted contracts between the parties, and either party to such contract should refuse to release such excess of deposit, the President of the Board is authorized, upon a representation of the facts and admission or proof that such excess ought to be released, to order such release and payment to be made to the party to whom it rightfully belongs, by the indorsement of an order to that effect on either the original or duplicate certificate or certificates issued for such deposits; provided, in case of such disagreement no surrender of the deposit shall be ordered pending any arbitration touching the rights of the parties under the said contract or contracts, or in case the party refusing to adjust the dispute shall signify his willingness to submit the matter to arbitration.

RULE XXI.

REGULAR DELIVERIES.

Tender of warehouse receipts.

SECTION 1. All deliveries upon contracts for grain or flax seed, unless otherwise expressly provided, shall be made by tender of regular warehouse receipts, which receipts shall have been registered by an officer duly appointed for that purpose. All such warehouse receipts shall be made to run five days from date of delivery on regular or customary storage charges, which regular or customary charges shall follow such warehouse receipts and be chargeable upon the property covered by the same, and shall be issued by such houses as have complied with the Rules of the Board of Trade and the Regulations and Requirements of the Board of Directors, and have been declared regular warehouses for the storage of grain or flax seed by said Board of Directors; and it shall be the duty of the Board of Directors, prior to the first day of July in each year, to inspect all warehouses, the proprietors or managers of which shall apply to have their receipts declared regular for delivery on contracts under the Rules of the Board of Trade, and no warehouse shall be declared a regular warehouse unless it is conveniently approachable by vessels of ordinary draft and has customary shipping facilities, and unless the storage rates on all grain or flax seed in such warehouses in bulk and in good condition, shall not be in excess of one and one-quarter ($1\frac{1}{4}$) cents per bushel for the first ten days or part thereof, and one-twentieth (1-20) of one cent per bushel for each additional day thereafter so long as such grain or flax seed remains in good condition, and unless the proprietors or managers of such warehouse are in good financial standing and credit, and are carrying on and intend to continue to carry on the legitimate business of public warehousemen under the laws of the State of Illinois and in accordance with the Rules of the Board of Trade of the City of Chicago and the Regulations and Requirements of the Board of Directors and until the proprietors or managers of such warehouse shall file a bond with sufficient sureties in such sum and subject to such conditions as may be deemed necessary by the Board of Directors, under the Rules of the Board of Trade and the Regulations and Requirements of the Board of Directors in reference to warehouses.

Requirements for regular warehouses.

Rates of storage.

Bond, sufficiency of.

Whenever application shall be made by the proprietors or managers of any warehouse to have the same declared a regular warehouse for the storage of grain and flax seed under the provisions of this Rule (except in cases of renewal on the first day of July in each year, as hereinbefore provided) any grain or flax seed that may be contained in said warehouse at the time of such application, shall be required to be removed from said warehouse, when after it shall have been graded and inspected according to its quality and condition then existing by the duly constituted authorities, such grain or flax seed may then again be received into said warehouse and receipts issued therefor shall be registered and dated upon the day when such grain or flax seed is again actually received into said warehouse.

Requirements
for removal of
grain from
warehouses
applied to be
regular.

The chief inspector of grain of the State of Illinois may, upon request of the Board of Directors of the Board of Trade, appoint a supervising inspector who shall so supervise the storage and distribution of grain and of flax seed in such warehouse that no discrimination or selection can be made in the quality or grade of grain or flax seed in the delivery of such grain or flax seed.

Warehouse receipts issued by warehouses so declared regular by the Board of Directors shall be regular for delivery on contracts under the Rules of the Board of Trade so long as the said warehouse shall continue to be a regular warehouse, but the term for which any warehouse is declared a regular warehouse to issue such receipts shall be limited to and expire on the first day of July in each year. No receipts issued on grain received in any warehouse shall be regular for delivery under the Rules of the Board of Trade after that date unless the warehouse upon which it has been issued has again been declared a regular warehouse by the Board of Directors; *provided*, however, that receipts issued before the first day of July by warehouses which have been regular warehouses during the preceding year, but which have not been declared regular for the succeeding year, shall be regular for delivery upon such contracts for six months after the first day of July; but nothing contained herein shall prevent the Board of Directors from declaring any warehouse, or the receipts thereof, irregular at any time for violation or non-compliance with the laws of the State of Illinois or any of the Rules of the Board of Trade or of the Regulations and Requirements of the Board of Directors.

Term of regular
warehouse.

Provided, that the Board of Directors shall have power, when in their judgment an emergency exists requiring more storage room than can be supplied by the regular elevator warehouses, or because of an inability to obtain insurance on grain stored therein, to declare any storehouses, vessels, or places suitable for the storage of grain or flax seed within the Chicago Switching District—wherein the cost of delivery to vessels or railroad cars shall not be greater than such as is made by the regular elevators for the same service—to be regular places for the storage of grain deliverable under the Rules of the Board of Trade.

Life of ware-
house receipts,

And *provided further*, that in case it shall happen that at any time there shall be no warehouses which shall be regular warehouses for the storage of grain and flax seed, then the Board of Directors may declare any warehouses suitable for the storage of grain or flax seed, whose aggregate capacity shall not exceed twenty-five million (25,000,000) bushels, regular warehouses for the storage of grain or flax seed, upon such terms and for such period as the Board of Directors in its discretion may deem necessary or proper, and the warehouse receipts issued by warehouses so declared regular under this proviso, shall be regular for delivery on contracts under the Rules of the Board of Trade, in the same manner as if issued by warehouses declared regular under the foregoing provisions of this section in regard to declaring warehouses regular for the term ending on the first day of July in each year.

Limitations of
aggregate
capacity of
warehouses

under
emergency

All complaints against elevator proprietors under this section shall be heard and decided by the Board of Directors of the Board of Trade of the City of Chicago.

On and after January 1st, 1915, grain in cars, including that graded "subject to approval," shall be deemed a valid tender on contracts during the last three business days of any month, under the provisions of the rules pertaining to the delivery of warehouse receipts—the railroad receipt issued against same evidencing ownership serving to convey the title to the grain, same as warehouse receipts issued against grain in warehouses—when conforming to the following requirements:

A. When within the Chicago Switching District; or, if arriving from outside of the same, when it has reached the railroad yards, where samples are taken by the Illinois State Grain Inspection Department, and when billed to an elevator the receipts of which are regular on delivery; provided nevertheless, that grain so delivered shall be unloaded into the elevator to which it is billed before the delivery shall be deemed complete, and bills for grain so tendered shall not be due and payable until the elevator receipt covering same shall have been delivered to the buyer. Provided further, that deliveries under this rule may be diverted by the buyer from unloading at a regular warehouse to any other unloading where the same will be weighed by the Weighing Department of this Association, by paying for the property before diversion.

B. When the grade of such grain tendered is evidenced as being a proper grade under the rules for tender, by a certificate of inspection of the Illinois State Grain Inspection Department showing the inspection to have been made during the last three business days of same month, which grade the seller shall be deemed as guaranteeing to the buyer to remain such until the buyer has had a reasonable time to unload; provided, that tenders of grain loaded from elevators within the Chicago Switching District shall, in addition to the Illinois State Grain Inspection Department certificate, have a certificate of approval of its quality by the Grain Sampling Department of this Board based on examination made during last three days of the month. Provided, that if the grade of grain in cars inspected is, on reinspection, or on appeal, lowered by the Illinois State Grain Inspection Department, such change of the grade shall not invalidate any deliveries on contracts of grain made before the grade has been so changed; and the adjustment of any damages sustained by the holder of the grain at the time such change in grade is known to the holder shall then be determined on the basis of the market price of the day of delivery and shall become at once due and payable.

C. When covered by a duly authorized "order" railroad receipt showing the grain to be billed to a regular elevator properly endorsed to convey title thereto. The delivery notice shall describe the railroad receipt in its essential features (date, issuing railroad, car number with name or initial and weight of contents), and shall be the basis of computing and determining all items chargeable to the property tendered same as storage charges against warehouse receipts. Provided, that in the event of all regular storage in the City of Chicago being filled, or for any reason unobtainable, and sellers being unable to procure railroad receipts covering consignments of cars to regular elevators, delivery of original bills of lading or railroad receipts issued therefor, the same not showing consignment to any elevator, shall be deemed a valid tender on contracts.

D. When the quantity so delivered is evidenced by weight certificates of the Weighing Department of this Association; or, if evidenced by weight certificate other than above; or, if the weight be estimated on the basis of the rated capacity of the car, such other weight certificate, or such estimated weight, shall be deemed to be

guaranteed by the seller to the buyer; and any excess over such weight so evidenced, at time of unloading, if then weighed by the Weighing Department of this Association, shall be settled for at the current market value on the day such variation is known to both parties, and any recess from such estimated weight shall be settled for at the current market value on the day of delivery. The weight of all carlots so delivered and finally unloaded at any elevator, the receipts of which are regular on delivery, shall be deemed the final weights on which settlement is made.

E. At any time when, in the judgment of the Board of Directors, an emergency exists, grain in cars shall be deemed a valid tender on contracts, on any business day of any month, when the grade of such grain tendered is evidenced as being a proper grade under the rules for tender, by a certificate of inspection of the Illinois State Grain Inspection Department showing the inspection to have been made during the preceding seventy-two hours, and when conforming to the other requirements of Paragraphs A, B, C and D of this Section, except that any excess or shortage in weights at time of unloading, if then weighed by the Weighing Department of this Association, shall be settled for at the current market value on day such variation is known to both parties.

SEC. 2. All deliveries of grain, flaxseed, mess pork, lard, d. s. short ribs, d. s. extra short clears or s. p. hams, in store on time contracts, shall conform to the following rules and be consummated in the following manner:

Delivery must be made in the exchange hall, or such other place as the Board of Directors may designate. Hours for delivery, 8:30 o'clock to 9:15 o'clock A. M. on each and every business day. 1:30 o'clock to 2:00 o'clock P. M. on the last business day of each month, provided that when such final delivery day falls on a 12:00 o'clock adjournment, the hour shall be 12:30 o'clock to 1:00 o'clock P. M. All members having property due them shall be present, or shall be represented by an authorized employe and admission to the delivery room shall be denied all members after 8:30 o'clock A. M., 1:30 o'clock P. M., or 12:30 o'clock P. M. as the case may be. Any property that cannot be delivered owing to the absence of the buyer from the delivery room, may be sold out by the member having same sold to such absentee, as herein-after provided in cases of default; all expenses and risk of carrying the property and a commission shall be paid by the absentee, the same as in the case of default; provided, however, such property shall not be

sold until the absentee has had notice in writing, either delivered to him in person, to his business representative, at his place of business, or left at the Secretary's office in case he has no regular place of business, that the property was ready for delivery under this rule. In case it should appear on complaint duly made to the Board of Directors that any member has been guilty of issuing a notice of readiness to deliver property as herein provided, who had not the property mentioned in such notice, in his control or possession at the time of issuing such notice, or, having issued such notice, shall thereafter dispose of the property, except as herein provided, or who refuses to deliver up such property when demanded, as provided for under this rule, such member shall be deemed guilty of gross fraud, and shall be suspended or expelled from membership in this Association, under the provisions of Rule IV.

Form of notice shall be in writing and give on its face the name and business address of its issuer. It shall give in detail the warehouse receipts to be delivered and in case of provisions, the packer's brand and the contract price on which delivery is being made. Also, the net cash value of said property at market price, such price to be posted by the Secretary in a suitable place immediately after the close, and applicable to the morning deliveries, and at a stated hour on the last business day of each month such market prices applicable to the afternoon deliveries.

A delivery notice may be passed from one purchaser to another during these hours of delivery by endorsement thereon by the seller, of the name of the buyer to whom it is being delivered, together with the contract price and the time of delivery, and the first delivery shall be made not later than five minutes after the opening delivery hour and anyone holding a delivery notice longer than five minutes during the delivering hours, as shown by the endorsement on the notice, shall not be permitted to deliver it.

Anyone who endorses on a delivery notice a name other than that of the one to whom he tenders the notice upon a bona fide sale of the property mentioned therein, or makes any alteration thereon, or substitutes any property other than that named in the notice by the original issuer, shall be guilty of gross fraud, and, if a member, he shall be suspended or expelled, at the discretion of the Board of Directors; and, if a non-member, he shall be permanently excluded from the rooms of the Association. All delivery notices shall be consecutively

numbered by the members issuing them. Notices of readiness to deliver property as herein provided, and all subsequent transfers of such notices, shall be deemed and held to be a valid and sufficient tender of property, on time contracts, under the rules of this Board of Trade, provided the property is actually delivered, or is shown to have been ready for delivery, in the manner and upon the terms herein provided.

Payment shall be by certified Chicago bank check, or other satisfactory consideration for the net amount due for the property represented by the delivery notice, and upon tendering the delivery notice with such payment at the office of the issuer, the holder of the notice shall be entitled to receive the property represented thereon.

The compulsory limitation of time for payment shall be on morning deliveries before 11:00 o'clock A. M. of the same day and on afternoon deliveries before 10:00 o'clock A. M. of the next business day, provided, however, that on such afternoon deliveries there shall not be added anything additional for interest or insurance and nothing deducted for additional storage for the period of time between the delivery and the actual payment.

In case property represented by a delivery notice is not called and paid for as herein provided, it may be held by the issuer of the notice, for and at the expense and risk of the member whom it may concern, until 12:30 o'clock P. M. of the same day on the morning deliveries and 12:00 o'clock M of the next business day on afternoon deliveries, at which time it shall be sold in open market for account of whom it may concern; or, it may be sold, if on morning delivery at any time between 12:30 o'clock P. M. of that day and 12:00 o'clock M of the next business day, and, if on afternoon delivery, at any time between the beginning of trading hours and 12:00 o'clock M of the next business day. The member holding the property shall, however, notify the member to whom he delivered the original delivery notice, before 2:00 o'clock P. M. of the same day of the default, if on the morning delivery, or before 4:00 o'clock P. M. of the same day on afternoon delivery; such notice of default to be in writing, and each purchaser receiving it, shall deliver the same without delay, to the member to whom he passed the original notice of proposed delivery. All expense and risk of carrying property defaulted on, including a commission of one-quarter of one cent per bushel on grain, and one-quarter of one per cent on the market value of provisions, shall be payable to the member required to make

resale, by the member to whom he had the property sold, he to be reimbursed by the member to whom he delivered the notice and consecutively until it is finally paid by the member in default. In case of such default and resale of property all differences shall be adjusted on the basis of the price at which the property has been resold.

All differences due from or to members to such delivery, shall be paid upon the basis of a full delivery, and no more, and each purchaser receiving notice of delivery, shall be responsible to the seller from whom the notice was received for the difference between the price actually paid for the property and their contract price. All such differences shall be due and payable immediately upon the delivery and payment for the actual property; it being the duty of each member transferring the delivery notice to ascertain what price was actually paid for the property.

On the last business day of each month, a member having grain bought in 1,000 bushel lots and sold in 5,000 bushel lots may deliver five one thousand bushel lots on a 5,000 bushel lot contract not later than five minutes after having received the last 1,000 bushel lot delivery notice, by attaching the five notices firmly to each other and making the usual endorsement upon the last notice as hereinbefore provided.

The Secretary of the Board, or any person acting under his direction, shall have the power to extend the time for such afternoon deliveries from 2:00 o'clock P. M. (if on a 12 o'clock adjournment day, from 1:00 o'clock P. M.), as often and to such time during that day as in his judgment it may be necessary to enable all, who are prepared to do so, to tender or receive delivery notices. When any extension of time is made under this proviso, it shall be announced in the Exchange Hall, or in such other place as may be designated by the Board of Directors for the purpose of making deliveries, on or before the expiration of the time hereinbefore stated for the termination of such deliveries; in the event of the extension of the time for deliveries as herein provided, wherever the time stated in this rule would be affected by such extension, such time shall in all cases be correspondingly extended.

It is the object and intent of this Section that all contracts for the purchase and for the sale of commodities mentioned therein shall be carried out in absolute good faith, it being expressly understood that

in construing this Section its purely technical provisions—the principal purpose of which is to facilitate deliveries—must not be used as a pretext to evade the obligations of a contract. Any violation, however, of any of the provisions of this Section with intent to thwart or impede deliveries shall be deemed dishonorable conduct under the provisions of Section 9 of Rule IV of the Rules of the Board of Trade of the City of Chicago.

SEC. 3. The Board of Directors may prescribe all necessary regulations and requirements for warehousing all kinds of property (other than grain) deliverable by warehouse receipts. Directors
may prescribe

regulations.

SEC. 4. It shall be the duty of the Board of Directors, under this Rule, to publish annually, or oftener if necessary, by posting on the bulletin of the Exchange, the names of all elevators and other warehouses conforming in all respects to prescribed requirements of said Board; and to report immediately to the Association, by posting as above, any irregularity in the management of such elevators or warehouses, or any fact calculated to discredit or impair the value of warehouse receipts of any such elevators or warehouses, as the same shall come to their knowledge. SEC. 5. All warehouse receipts for property tendered or delivered on contracts shall be for quantities or parcels, in the aggregate, as sold; accompanied by a memorandum of the property delivered, with the price of the same, together with the amount due therefor; provided, that on all time contracts of five thousand (5,000) bushels of grain or flaxseed, or any multiple thereof, deliveries shall be made in lots of five thousand (5,000) bushels; and on all time contracts for mess pork, or sweet pickled hams, for two hundred and fifty (250) packages, or multiples thereof, deliveries shall be made in lots of two hundred and fifty (250) packages; and on all time contracts for fifty thousand (50,000) pounds of lard, or any multiple thereof, deliveries shall be made in lots of fifty thousand (50,000) pounds (contained in 136 tierces); and on all time contracts for fifty thousand (50,000) pounds of meats, or any multiple thereof, deliveries shall be made in lots of fifty thousand (50,000) pounds; and on all time contracts for one thousand (1,000) bushels of grain or flaxseed, or any multiple thereof, except as provided above, deliveries shall be made in lots of one thousand (1,000) bushels; and on all time contracts for mess pork, sweet pickled hams, or lard, for fifty (50) packages, or any multiple thereof, except as provided above, deliveries shall be made

in lots of fifty (50) packages; and on all time contracts for twenty-five thousand (25,000) pounds of meats, or any multiple thereof, except as provided above, deliveries shall be made in lots of twenty-five thousand (25,000) pounds; a variation, however, of one per cent in the quantity of grain and flaxseed delivered, and that contracted for, shall not vitiate a tender or delivery. Any excess or deficit within the above limits shall be settled for at the current market upon the day of delivery.

No individual, firm or corporation shall make tender upon contracts for grain or flaxseed, as hereinbefore provided, until such grain or flaxseed is covered by insurance, issued by the Underwriters Grain Association of Chicago, for at least eighty-five per cent of its market value, such insurance to cover purchaser until 12 o'clock noon of the next business day after the day of delivery; and if purchaser is unable by 12 o'clock noon of next business day after day of delivery to obtain through the ordinary insurance channels his insurance to the extent of 85 per cent of the market value of the property, he then, prior to that time, may call on the party making the delivery. Such party must then furnish the insurance.

PENALTY

Any member, firm or corporation who purchases and holds fire insurance on grain or flaxseed in any regular elevator without owning or holding warehouse receipts on grain or flaxseed in said elevators, with intent to thwart or impede deliveries, shall be deemed guilty of dishonorable conduct under the provisions of Section 9 of Rule IV; provided, however, that nothing herein shall be construed as forbidding the retention of such insurance from day to day when not in excess of ordinary and reasonable business requirements. The Secretary of this Association shall have the authority at any time to call upon the holders of insurance on grain or flaxseed for the description of the quantity and character of the grain or flaxseed that they hold in any elevator.

All such warehouse receipts issued from or by each warehouse, or other place of storage, shall be consecutively numbered, and no receipts of duplicate numbers issued from the same place of storage shall be registered. No second warehouse receipt for the same property shall be registered unless the original is presented at the time and its registration canceled by the Registrar.

open market an equal quantity of the commodity covered by the contract; provided, however, when contracts are based on type sample, it shall be the duty of the seller to notify the buyer at least one business day before expiration of contract of his inability to comply therewith, whereupon the buyer shall elect to use one of the three alternatives hereinbefore provided, except if he shall elect to buy in the same he shall do so without unnecessary delay; and, in any case, within three business days after expiration of the time named in the contract.

It shall also be the duty of the seller to deliver to the buyer, and it shall be the duty of the buyer to demand from the seller, at time of payment, an official certificate of the Custodian Department of this Board if the property has been unloaded under the jurisdiction of the Custodian Department. Failure to deliver the freight bill from the originating line shall not be construed as a sufficient reason for refusal of payment for such property. On all property sold as above described, where the weights are not available to the seller, but are in the regular course of business first delivered to the buyer, weight tickets with checks covering payment shall be delivered on the day next succeeding the date on which it is unloaded, by 1:45 P. M. on any regular banking day, or by 11:50 A. M. on Saturdays. RULE XXIII.

FAILURE TO DELIVER OR RECEIVE ON CONTRACTS.

SECTION 1. In case any property contracted for future delivery is not delivered at maturity of contract, the President shall appoint a committee of three from the membership at large, to be approved by the Board of Directors, which committee shall determine as nearly as possible the true commercial value of the commodity in question on the day of maturity of the contract, and the price so established shall be the basis upon which settlement is made.

As liquidated damage the seller shall pay to the purchaser not less than five per cent, nor more than ten per cent of the value of the commodity as established by the committee; the percentage, within said limits, to be such as, in the judgment of the committee, may be just and equitable.

Settlement shall be made without delay, and the damage, as determined under the provisions of this section, shall be due and payable immediately upon the finding of the committee.

This section shall not be construed as applying to any parties having the property both bought and sold, in all of which cases settlement shall be made on the basis of prices established by the contracts in such instances.

SEC. 2. In case any property contracted for future delivery is not received and paid for when properly tendered, it shall be the duty of the seller, in order to establish any claim on the purchaser, to sell it on the market at any time during the next twenty-four hours, at his discretion, after such default shall have been made, notifying the purchaser within one hour of such sale; and any loss resulting to the seller shall be paid by the party in default.

SEC. 3. The Board of Directors, during the continuance of any war to which the United States shall be a party, shall have power from time to time to thereafter prohibit, until further action of the Board and notice thereof, trading for present or future delivery in any or all of the commodities traded in on its exchange, or such trading for delivery in any particular month, including trading in settlement of any then existing future contracts. Whenever such trading for future delivery shall have been so prohibited, the Board of Directors shall appoint a committee of three from the membership at large, which committee shall fix, as of the day immediately preceding the first day on which said future trading shall have been prohibited, a fair and reasonable price at which existing contracts shall be settled, and the price so established shall, without the payment of any penalty, be the basis on which such settlements of such contracts for future delivery shall be made. The Board of Directors, whenever the public welfare, or the best interests of the Association in its judgment seem so to require, shall have power to suspend, during the continuance of any war to which the United States shall be a party, the operation of any rule of the exchange, and also to fix a maximum price for any commodity dealt in on its exchange, above which price no member shall thereafter and during the maintenance of said maximum price, be permitted to make a trade in such commodity.

Any action of the Board of Directors under this Section shall be binding on all members of the Association, from and after the hour when the same shall be posted on the bulletin board in the exchange room.

Any member making a trade, or refusing to make a settlement, or doing any act in violation of this Section, shall be deemed to have been guilty of a grave offense involving the good name of this Association, and shall be liable to punishment as provided in Section 18 of Rule IV.

RULE XXIV.

PROVISIONS.

SECTION 1. The Board of Directors shall appoint five members of the Association as a Committee on Provision Inspection, who shall have and exercise a general control over the inspection of provisions, and shall act as referees in case of complaint against the Chief Inspector of Provisions or the inspection of any lot of provisions, or any matter of difference pertaining to the same, except as hereinafter provided. The committee shall be authorized, in determining the correctness of any inspection they are called upon to revise, to adopt any measure they may deem necessary under the circumstances for the ascertainment of its true character. The committee shall be entitled to fees amounting to three dollars each for each case of reference decided by them, to be paid by the party against whom the decision shall be made.

SEC. 2. The Board of Directors will also appoint a suitable person as Chief Inspector of Provisions, who shall be required to give a bond in such amount as shall be fixed by the Board of Directors, conditioned for the faithful performance of his duties as prescribed by the Rules and Regulations of the Board of Trade of the City of Chicago and the Regulations of the Board of Directors; which said bond shall be made to the Board of Trade of the City of Chicago, for the use and benefit of any parties having claims under the Rules and Regulations of the said Board of Trade for damages against said Chief Inspector on account of any of his official acts. Said bond shall be satisfactory to and approved by the Board of Directors before the said Chief Inspector shall be entitled to enter upon the discharge of his official duties.

SEC. 3. The Chief Inspector of Provisions shall appoint, to be confirmed by the Committee on Provision Inspection, a sufficient number of competent deputy inspectors, who shall be under his control and subject to his orders in all matters pertaining to the performance of official duty.

SEC. 4. The Chief Inspector, through and by his deputies, shall furnish the necessary labor and materials for inspection. The several deputy inspectors shall make a report in detail of every inspection or examination they may make, which report shall be returned to the Chief Inspector, and be by him preserved for future reference.

SEC. 5. The Board of Directors shall also appoint a competent person as Registrar of Provisions, whose duty it shall be to provide and cause to be kept suitable books, in which shall be registered all warehouse receipts for beef, sheep and hog products issued as "regular" or for the "regular delivery" of such property in the Chicago market under the Rules of the Board of Trade; such receipts, after being so registered, shall be stamped or written across their face with the word "Registered" and the date of such registry, and signed, in writing, by said Registrar or some person duly authorized by him for that service. All warehouse receipts, before being registered, shall be plainly numbered, and shall indicate on their face the number or mark of the particular lot of property intended to be covered or represented by such receipt. All such receipts issued from or by each warehouse or other place of storage shall be consecutively numbered, and no receipts of duplicate numbers issued from the same place of storage shall be registered. All property covered or represented by registered warehouse receipts shall be plainly marked in such manner as will clearly distinguish it from all other property stored in the same warehouse or place of storage, and by such marks, numbers or characters as may be approved by the Registrar of Provisions; such marks to be so arranged as to avoid the possibility of duplication or uncertainty as to the identity of the property so receipted for. No warehouse receipt shall be registered until a report shall have been received at the office

New receipts.

of the Registrar of Provisions from a duly authorized deputy that the property represented by the receipt is actually in the place of storage and is marked as indicated in the receipt; such reports shall be in a form prescribed by the Registrar, and shall be preserved by him for future reference. No second warehouse receipt for the same property shall be registered unless the original is presented at the time and its registration canceled by the Registrar. In such case, new receipts, either for the whole or parts of lots, or the consolidation of different lots, may be registered upon the report of a deputy that the property is in the place represented, and is marked as represented. All new receipts so registered, except receipts for short rib sides and extra short rib sides, shall bear the same date, as near as may be, with the originals so canceled, and no receipts differing in date more than thirty days shall be consolidated into a new receipt.

Property not to be removed until registration is canceled.

No property shall be removed from the place of storage indicated by any registered receipt issued to represent it until the registration of such receipt has first been canceled in the office of the Registrar of Provisions, by writing or stamping across its face the words, "Registration Canceled."

Compensation of Chief Inspector.

SEC. 6. The Chief Inspector shall receive for his services and for the compensation of the deputy inspectors employed by him, the fees for inspection as established by the Board of Trade. The Registrar shall receive, as compensation for his own services and the necessary expenses of his office, such sum, to be paid from the funds of the Association, as may be determined by the Board of Directors.

Compensation of Registrar.

SEC. 7. All claims for errors of inspection, or damages resulting from improper inspection, shall be made to the Chief Inspector, and in case of dispute as to the validity of any claim so made, the question shall be decided by the Committee on Provision Inspection, or by a special arbitration, if either of the parties so prefer. In the latter case the arbitrators shall be chosen either by mutual agreement, or an equal number, not exceeding two, may be selected, each by the Chief Inspector and the claimant; and the persons so chosen shall select an additional arbitrator. Arbitration, either by the Committee on Provision Inspection or special arbitrators, shall be conducted under substantially the same form of proceedings as regular arbitrations under the Rules of the Board of Trade, and shall be subject to all the provisions of regular arbitrations, except that they shall not be subject to appeal.

Claims for damages.

SEC. 8. All deliveries of beef, sheep or hog products in store, in the absence of special agreement, shall be by the delivery of registered warehouse receipts, issued from such warehouses or places only as shall have been declared regular warehouses for the storage of such property by the Board of Directors, under the Rules of the Board of Trade; such places of storage, in all cases, to be under cover, and such as are suitable for the proper preservation of the property. All such deliveries shall be accompanied by a certificate of inspection of the Chief Inspector of Provisions, which certificate shall state the number of packages or the number of pieces, together with their weight, in the lot to which it applies, the place where the same are stored, and the distinguishing marks upon it; also the number of packages or pieces examined, and that the same was found to be in good merchantable condition and of standard quality. In the case of barreled pork, the number of pieces and the weight in each barrel shall be stated, likewise the date when packed; and in the case of lard, the date of its packing, as indicated by the packer's brand upon the packages. Such certificate shall be dated within thirty (30) days of such delivery; the required number of days shall include both the day of date and the day of delivery.

Date of certificate.

If more than one brand of lard or of barreled pork is tendered in one lot, the buyer shall not be liable for more inspection fees than if the tender were all of one brand, provided, that not more than two brands shall be tendered on delivery in each unit of transactions and shall be in the same warehouse and on the same floor.

SEC. 9. No warehouse receipts for beef, sheep or hog product ^{Regular warehouse.} shall be registered except such as have been issued by or from a warehouse or place of storage declared to be a regular warehouse for the storage of such property by the Board of Directors of the Board of Trade; and before any warehouse or storage place shall be declared a regular warehouse for the storage of such property, the proprietors or managers thereof shall file a bond with sufficient sureties in such ^{Warehouse} sum and subject to such conditions as may be deemed necessary by ^{bond.} the Board of Directors under the Rules and Regulations of the Board of Trade and the Regulations and Requirements of the Board of Directors in reference to such warehouse.

Sec. 6. Buyers of provisions on contract, deliverable on the demand of the buyer, within a specified time, shall have the right to inspect the same before the day of delivery, provided they send an inspector in time to allow the inspection to be completed before the proposed delivery; but failing to do so, the seller shall have the privilege of having the property inspected, the cost to be paid by the buyer.

At each point an equal quantity of seed shall be taken, aggregating three pounds, which shall be deemed an average sample of carload. When car is inspected, cards in duplicate shall be written stating the result, the one tacked to grain door of car, the other attached to sample. *Provided*, always, should the car be so unevenly loaded, either to quality or impurity, as to leave a doubt in the mind of the Inspector as to correctness of sample, he will not card the car, but note the fact and report to consignee.

If the inspection is sustained the five dollars shall be paid to the committee, but if not sustained to be returned. If practicable, the committee shall examine the seed upon which appeal has been taken. If not practicable, the Inspector shall furnish sample taken by him.

SEC. 12. The Board of Trade, in establishing the regulations for the inspection of flaxseed and appointing an Inspector thereof, personally assumes no liability or responsibility for errors in judgment or otherwise on the part of the Inspector.

Thirteenth. It shall be one of the duties of the Official Sampler to thoroughly examine these samples daily, and in case any of them indicate improper grading, he shall, in case the Chief Inspector, the Supervising Inspectors or the Appeal Committee have not already taken up such improper grading for correction, call their attention to same, explaining in what way the inspection has been too lenient or too rigid.

Fourteenth. In case the Official Sampler or any other party at interest, *i. e.*, the buyer or the seller, should thus complain to the State Department and fail to have his complaint properly or favorably considered by the State Department, it shall be the duty of the Sampling or Grain Committee to listen to his complaint, and if it is in their judgment reasonable, the other parties at interest shall be notified, and the matter taken up by the Grain Committee with the State Department—all parties at interest being given an opportunity of being present at such hearing.

Seventeenth. In cases where it is necessary for the Grain or Sampling Committee to take the question of moisture into account, rendering a chemical analysis necessary, this shall be made promptly.

Eighteenth. Nothing in the above shall be understood as giving the Grain Committee any privileges relative to the examination of samples or the knowledge of their identity other than those enjoyed by the public, excepting when complaint is made to them under the provisions of the above regulations, or when an appeal is taken as is provided in Section 18 of Rule 22, 2nd paragraph, in which case the examination shall be made at such time and place and after such notification as will give all parties at interest an opportunity of being present.

Nineteenth. In case it should not be feasible to obtain samples of track arrivals in the manner above outlined, owing to the volume of grain coming in, an arrangement may be made with Receivers' agents to work in conjunction with Inspectors to take an extra sample for file in the Chief Inspector's office as above outlined.

REGULATIONS For the Weighing of Grain

Under and by virtue of the provisions of Section 2, Rule IV, of the Rules of the Board of Trade of the City of Chicago, enacted in pursuance of Section 10 of the Act to Incorporate the Board of Trade of the City of Chicago, the following regulations are adopted by the Directors of the said Board of Trade of the City of Chicago, for the guidance and information of the Weighing Department and the members of this Association.

REGULATION 1.

Received or transferred grain shall not be cleaned or blown before weighing, nor shall it be subjected to such handling as will cause loss in weight. This prohibition shall also apply to shipments after weighing.

REGULATION 2.

No dockage from actual weights shall be allowed on in-coming or out-going grain, except when unusual dirt or foreign matter is inseparably mixed with the grain, in which case it shall be the duty of the weighmaster or his deputy to determine the amount of unusual dirt or foreign matter, and to weigh the entire contents of the car. All allowances for unusual dirt or foreign matter shall appear on the face of certificate issued for such cars.

REGULATION 3.

All cars when unloaded must be thoroughly swept and cleaned, except in cases where cars contain foreign matter unsuitable for mixing with grain. Then it shall be the duty of the Weighmaster or his deputy to determine the amount of grain and foreign matter to be left in the car. This amount shall be stated on the certificate of weights for each car, but such amount shall not be included in the net weight as shown by certificate.

REGULATION 4.

If hopper scales are used in determining the amount of grain a car contains it shall be the duty of the elevator operators unloading such car to deliver to the scales the entire contents of said car except where cars contain unusual dirt or foreign matter not covered by Reg. 3, because not suitable for handling by elevator.

It shall be the additional duty of said elevator operator to clean thoroughly the unloading pits and the floor adjacent to such pits of any of the contents of said car that may have lodged there and deliver such contents to the scale to be weighed and credited to said car.

REGULATION 5.

The contents of each car shall be weighed in as few drafts as the scale in use will permit.

REGULATION 6.

The Weighmaster and his deputies shall be allowed to handle the scale beam in the performance of their duties.

REGULATION 7.

Certificates of weight shall bear the date of weighing, and when issued for cars that have been loaded with grain which, for any reason, are subsequently returned to the loading elevator and wholly or partly unloaded, shall promptly be returned to the weighing department by the member, firm or corporation receiving such certificates.

REGULATION 8.

No certificates of weights shall be issued on grain unloaded or transferred en route unless they are applied for within a reasonable time after cars are weighed, and before they have had time to arrive at their destination.

REGULATION 9.

A straight transfer must consist of the transferring of grain from one car to another without its identity being lost. If transferred through an elevator, the grain must go direct from the western or unloaded car to the scale and from the scale direct to the eastern, or car to be loaded without going into or through any house bins.

REGULATION 10.

All cars that are to be loaded with grain shall be in a suitable condition to carry such grain safely. In case cars are loaded that, in the judgment of the Weighmaster or his deputies, are not in proper condition to carry grain safely, the parties loading such cars shall at once be notified, and a statement of the condition of the car shall appear on the face of the certificate of weight issued for such cars.

REGULATION 11.

The Weighmaster in regulating the details of his office and the service of employes may, with the consent of the Weighing Committee, make such regulations as may be requisite or desirable in order to secure correct weights.

REGULATION 12.

Any member, firm or corporation of this Association receiving weight certificates not belonging to them shall return promptly such certificates to the Weighing Department, in order to facilitate delivery to the rightful owner.

**REGULATIONS ADOPTED UNDER THE AUTHORITY GRANTED IN
SECTION 22 OF RULE IV, ESTABLISHING "THE CUSTODIAN
DEPARTMENT OF THE BOARD OF TRADE OF THE
CITY OF CHICAGO"**

I.

A Custodian duly appointed by the Board of Directors, shall be placed at such private elevators or other buildings or places of private ownership as the Custodian Committee shall deem necessary and such Custodian shall keep a daily record containing the official Board of Trade weights of all commodities dealt in under the rules of the Association and weighed by the Official Board of Trade Weighmaster which commodities have been unloaded into or loaded out of such private elevators or other buildings or places of private ownership.

II.

When any of such commodities shall be unloaded as above provided, the Custodian shall promptly issue and deliver to the party for whose account the same is unloaded an official certificate as evidence of such unloading, except in cases where the commodity is loaded out in whole or in part on the same day as received, in which case the Custodian shall procure the shipping receipt or bill of lading given for such property, and shall deliver the same to such party with a certificate for such quantity that is not loaded out—the two together representing the entire quantity unloaded.

III.

The Custodian shall not allow the loading out of any commodity from such private elevators or other buildings or places of private ownership, except as provided in the second of these Regulations, until the proprietor or manager thereof shall surrender to him for cancellation official certificates properly endorsed equal to the amount of the commodities to be loaded out and such commodities shall be weighed by the Weighing Department of the Board of Trade of the City of Chicago.

IV.

The Custodian shall estimate daily the amount of shrinkage incidental to the handling, cleaning or clipping of grain, also of any variation between the "in" and the "out" weight, and report same at once to the proprietors or managers, and it shall be their duty to surrender to the Custodian certificates for cancelation sufficient to cover same. It further shall be the duty of the proprietors or managers to keep in store at all times, in excess of all outstanding certificates, a quantity equal to at least 3 per cent of the total quantity in store represented by outstanding certificates, in addition to the estimated amount of shrinkage, as hereinbefore provided.

V.

In such places where the commodities herein described are manufactured into products, or the original commodity otherwise changed in form, the Custodian may permit the proprietors or managers thereof to use such commodities without the surrender of Custodian certificates for the same whenever the said proprietors or managers shall furnish to said Custodian written evidence of the consent to such use by the party for whose account the said commodities were unloaded; provided, however, that the Custodian shall not issue any certificates for commodities used under such circumstances.

VI.

It shall be the duty of the Custodian to require the official weighing of all commodities in each and every private elevator, or other building, or place of private ownership hereinbefore described, by the Board of Trade Weighmaster as often as in his judgment may be needful to enable him to accurately determine the quantity of commodities stored in such elevators, or other buildings, or places of private ownership, for the purpose of verifying the correctness of his outstanding certificates; or the Custodian Committee may at any time in the exercise of its discretion, order the weighing of such commodities.

VII.

Whenever, in the judgment of the Custodian or of the Custodian Committee it shall be deemed advisable, the proprietor, or manager, of such private elevators other buildings or places of private ownership, shall be required to increase his ordinary line of fire insurance upon such private elevators, other buildings or places of private ownership and the contents thereof for which Custodian certificates have not been surrendered for cancellation, to such an amount as may be determined by the Committee or the Custodian; and such proprietor, or manager, shall allow an inspection of the amount and character of said insurance carried by such proprietor, or manager, whenever requested by the Custodian Committee or by the Custodian.

VIII.

Whenever such a course shall, in the judgment of the Custodian Committee, be deemed necessary, it is hereby empowered to impose upon such proprietors or managers the duty of preserving the identity of all grain thereafter unloaded into such private elevators, or other buildings, or places of private ownership; or in lieu thereof, the adoption of such measure or measures as in the judgment of the Custodian Committee may be adequate to protect the parties for whose accounts the commodities aforesaid were unloaded.

IX.

The buyers of commodities sold and delivered as hereinbefore provided shall tender in payment certified checks whenever the party for whose account such commodities have been unloaded shall give reasonable notice of his intention to demand the same and the latter may retain in his possession the Custodians' certificate until such certified check is thus tendered.

X.

It shall be the duty of the Custodian at such private elevator or other building or place of private ownership at the close of each day to seal the engine, shipping bins or other bins, or to adopt any other measures which in the judgment of himself or the Custodian Committee are necessary to prevent the removal of grain or other commodities from such private elevator or other building or place of private ownership during the absence of such Custodian.

XI.

All such commodities unloaded as aforesaid shall be held in such private elevator or other building or place of private ownership and shall not be released therefrom except in accordance with the Rules and Regulations of this Association governing the Custodian Department, but the Custodian, his assistants or subordinates shall not be liable in their official bonds or otherwise for any losses unless such losses are directly attributable to the negligence or misfeasance of said Custodian, his assistants or subordinates in issuing certificates for commodities not in fact unloaded or in allowing, during the hours when such private elevator or other building or place of private ownership is open for business, such commodities to be loaded out without requiring the surrender of official certificates for the same and nothing herein or any custom or private agreement to the contrary shall be construed to extend such liability; provided, however, that the Board of Trade of the City of Chicago shall in no case be liable for any losses except to the extent that such losses are due to its failure to keep in force a good and reasonable bond for the honesty and fidelity of said Custodian, his assistants or subordinates.

Also, shall record the identity and condition of the seals found, if any, on arrival inspection; and also shall report if or not cars are properly sealed before they depart from such in-bound yards. It shall be the duty of inspectors to report promptly to the proper local representative of the carrier any condition of leakage found by them to the end that further loss may be at once stopped.

A full record of the inspection of each car shall be kept in suitable record books in the office of the official Board of Trade Weighmaster.

It shall be the duty of the car inspector to promptly issue and deliver an official certificate to the consignor, or the consignor to be notified, as evidence of the physical condition in which he found the car, the condition of its seals and whether sealed or not on departure, together with any other report on the condition of the car relative to its safe use for transporting grain.

RULES

Governing the Inspection of Grain IN THE STATE OF ILLINOIS

The following are the rules adopted by the Public Utilities Commission of Illinois, establishing a proper number and standard of grades for the Inspection of Grain, as revised by them.

EXTRACT FROM THE RULES

Prescribed by the Public Utilities Commission for the Administration of the Department of Grain Inspection and Warehouse Registration in the State of Illinois, and in force from and after December 1, 1916.

ATTEMPTS AT FRAUD OR INTERFERENCE

All persons employed in the inspection of grain shall promptly report to the Chief Inspector in writing all attempts to defraud the system of grain inspection established by law, and all instances where warehousemen shall deliver or attempt to deliver grain of a lower grade than that called for by the warehouse receipt.

They shall also, in the same manner, report all attempts of receivers or shippers of grain, or any other person interested therein, to instruct or in any improper way to influence the action or opinion of any inspector in the discharge of his duty; and the Chief Inspector shall report all such cases to the Commission.

OUT INSPECTION

All grain in store in any warehouse of Class "A" at the time any amendment to the established rules of inspection (affecting such grain) may hereafter go into effect shall be inspected out (in satisfaction of warehouse receipts dated prior to that time only) in accordance with the rules as they stood prior to such amendment.

CLAIMS ON ERRORS

No claim for damages on account of error in the inspection of any lot of grain (except grain inspected from public warehouses in accordance with law) will be entertained or allowed by the State Public Utilities Commission, unless complaint of such inspection shall be made to the Chief Inspector before the grain in question shall be removed from car in which it is inspected, or before it shall leave the jurisdiction of the department.

Grain transferred from the car in which it was inspected to another must be inspected after transfer to entitle the owner to have any claim arising thereunder considered by the State Public Utilities Commission.

ABSENCE FROM DUTY

Failure to report for duty, unless properly excused, will be deemed a surrender of the position held by the absentee and no compensation will be allowed for days so absent.

CAR CONDITION

Deputy Inspectors, Grain Samplers, and Grain Helpers are especially instructed to use all due care in cases where it becomes necessary to remove boards to obtain ingress into cars in order to properly inspect or sample the grain in such cars, to replace all such boards removed in such manner as to prevent leakage or waste of grain from cars. It will be the duty of all Inspectors and Grain Samplers to make a record of defective and leaky condition of cars and grain doors and to report the same to the Chief Inspector on blanks especially prepared, showing the location of leakage and such other information as would be of service to the receiver and the shipper of grain.

EARLIER HOURS

When the receipts are large, and the interests of the trade require an earlier inspection, all Deputy Inspectors, Grain Samplers and Grain Helpers assigned to duty on the tracks will begin work at as early an hour as practicable.

EVENING WORK

Inspectors stationed at elevators will, when necessary to complete the cargo or shipment upon which they may be engaged, remain on duty after regular hours and as late in the evenings as they can see to inspect grain safely. Compensation for such services is provided in Rules 13 and 14 of the Public Utilities Commission rules.

WET WEATHER AND DARKNESS

No Inspector stationed at an elevator is authorized to inspect out of store after dark or in wet weather, except on receipt personally or through the office of the Chief Inspector, of an order written upon printed blanks furnished by the Department filled and signed by the owner of the grain or his authorized agent, relieving such Inspector of all responsibility for damage which may be caused by such wet weather, or loss by such errors as are liable to occur by reason of darkness; but in every case the Inspector must be personally present, when the grain is actually delivered on board, making his report of the inspection after such actual delivery.

NOTICE

All matters pertaining to the inspection of grain should be taken up by the Chief Inspector of Grain.

In case of unsatisfactory inspection, write or wire immediately. Grain cannot be reinspected after it has been unloaded and the identity of it lost.

WALTER E. SCHMIDT,
Chief Grain Inspector

GRADES FOR MIXED WHEAT.—Mixed wheat shall be graded according to each of the grade requirements common to all of the subclasses of the class of the wheat which predominates over each other class in the mixture, except that (1) all of the grade requirements in any subclass as to the maximum percentage of other wheat or other varieties of wheat shall be disregarded, and (2) when soft red winter wheat so predominates, the grade requirements as to test weight per bushel shall be those of the subclass Red Winter. The grade designation of mixed wheat shall include, successively, in the order named the number of the grade or the words "Sample Grade," as the case may be, the word "Mixed," and, in the order of its predominance the name and approximate percentage of each class of wheat which constitutes ten per centum or more of the mixture, but if only one class exceeds ten per centum of the mixture, the name and approximate percentage of that class shall be added to the grade designation followed by the name and approximate percentage of at least one other class.

GARLICKY WHEAT.—Garlicky wheat shall be all wheat which has an unmistakable odor of garlic or wild onions, or which contains garlic or wild onion bulblets in a quantity equal to one or more bulblets in one thousand grams of wheat.

GRADES FOR GARLICKY WHEAT.—Garlicky wheat shall be graded and designated according to the grade requirements of the standard applicable to such wheat if it were not garlicky, and there shall be added to, and made a part of, its grade designation the word "Garlicky."

TREATED WHEAT.—Treated wheat shall be wheat of which more than ten per centum has been scoured, limed, washed, or treated in any similar manner.

GRADES FOR SMUTTY WHEAT.—Smutty wheat shall be graded and designated according to the method described either in paragraph (a) or paragraph (b) of this section.

(a) Before the determination of smut dockage as provided in this paragraph, the wheat shall be graded and designated according to the grade requirements of the standard applicable to such wheat if it were not smutty, except that smut balls shall not be considered as foreign material other than dockage. The loss in weight caused by the removal of smut from the wheat shall be ascertained by scouring, washing, or otherwise, and shall be calculated in terms of percentage based on the total weight of the grain free from dockage. The percentage so calculated shall be stated in terms of whole per centum and half per centum. A fraction of a per centum when equal to, or greater than, a half shall be treated as a half, and when less than a half shall be disregarded. The percentage of the "smut dockage," so calculated and stated, shall be added to the grade designation preceding the statement of dockage, if any.

(b) Smutty wheat shall be graded and designated according to the grade requirements of the standard applicable to such wheat if it were not smutty, except that (1) smut balls shall not be considered as foreign material other than dockage, and (2) when the amount of smut present is so great that any one or more of the grade requirements of the grades from No. 1 to No. 5, inclusive, cannot be applied accurately the wheat shall be classified as Sample Grade. For all grades there shall be added to and made a part of the grade designation, preceding the statement of dockage, if any, the word "smutty."

(3) MIXED CORN.—Corn of various colors not coming within the limits for color as provided in the definition of white corn or yellow corn. White capped yellow kernels shall be classified as mixed corn.

(4) BASIS OF DETERMINATION.—Each determination of color, damage and heat damage shall be upon the basis of the grain AFTER the removal of foreign material and cracked corn as provided in Section 8. All other determinations shall be upon the basis of the grain including such foreign material and cracked corn.

(5) PERCENTAGES.—Percentages, except in the case of moisture, shall be percentages ascertained by weight.

(7) PERCENTAGE OF MOISTURE.—Percentage of moisture in corn shall be that ascertained by the moisture tester and the method of use thereof described in Circular No. 72, and supplement thereto, issued by the United States Department of Agriculture, Bureau of Plant Industry, or ascertained by any device and method giving equivalent results.

(8) FOREIGN MATERIAL AND CRACKED CORN.—Foreign material and cracked corn shall be kernels and pieces of kernels of corn, and all matter other than corn, which will pass through a metal sieve perforated with round holes fourteen sixtieths of an inch in diameter, and all matter other than corn remaining on such sieve after screening.

(9) HEAT DAMAGED KERNELS.—Heat damaged kernels shall be kernels and pieces of kernels of corn which have been distinctly discolored by external heat or as a result of heating caused by fermentation.

OFFICIAL GRAIN STANDARDS OF THE STATE OF ILLINOIS FOR OATS

OATS.—Oats shall be any grain which consists of cultivated oats and not more than twenty-five per centum of foreign material, other grains, and wild oats, either singly or in any combination.

BASIS OF DETERMINATIONS.—All determinations shall be upon the basis of the lot of grain as a whole, including foreign material, other grains and wild oats.

PERCENTAGES.—Percentages, except in the case of moisture, shall be ascertained by weight.

SOUND CULTIVATED OATS.—Sound cultivated oats shall be all grains and pieces of grains of cultivated oats which are not heat damaged, sprouted, frosted, badly ground, damaged, badly weather damaged, or otherwise distinctly damaged.

TEST WEIGHT PER BUSHEL.—Test weight per bushel shall be the test weight per Winchester bushel as determined by the testing apparatus and the method of use thereof described in Bulletin No. 472, dated October 30, 1916, issued by the United States Department of Agriculture, or as determined by any device and method giving equivalent results.

NOTE.—Under rules and regulations pursuant to the United States grain standards act, licensed inspectors will be required to state in all certificates issued by them for oats the test weight per bushel in terms of whole and half pounds. For this purpose a fraction of pound when equal to a greater than a half will be treated as a half, and when less than a half will be disregarded.

PERCENTAGE OF MOISTURE.—Percentage of moisture in oats shall be ascertained by the moisture tester and the method of use thereof described in Circular No. 72 and supplement thereto, issued by the United States Department of Agri-

culture, Bureau of Plant Industry, except that the graduated measuring cylinder used shall be that described in Department of Agriculture Bulletin No. 56; or such percentage shall be ascertained by any device and method giving equivalent results.

HEAT DAMAGED GRAINS.—Heat damaged grains shall be grains and pieces of grains of cultivated oats, other grains, or wild oats, which have been distinctly discolored or damaged by external heat or as a result of heating caused by fermentation.

FOREIGN MATERIAL.—Foreign material shall be all matter other than grains and pieces of grains of cultivated oats, except other grains and wild oats, and shall include oat clippings.

OTHER GRAINS.—Other grains shall include wheat, corn, rye, barley, emmer, spelt, einkorn, grain sorghums, rice, cultivated buckwheat and flaxseed only.

COLOR CLASSIFICATION.—All oats shall be designated in accordance with grades for white, red, gray, black or mixed, according to the color of the oats, as the case may be. For the purposes of this section white oats include yellow oats. Oats shall be white, red, gray or black respectively, when they consist of oats of such color and not more than ten per centum of other colors of cultivated and wild oats, either singly or in any combination. Mixed oats shall be all other oats.

GRADES.—All oats shall be graded and designated as No. 1, No. 2, No. 3, No. 4 or sample grade, white, red, gray, black or mixed, as the case may be, according to the respective requirements thereof as specified in this section, except that in the case of mixed oats the requirements as to the maximum percentages of other colors shall be disregarded.

BLEACHED OATS.—Bleached oats shall be oats which in whole or part have been treated by the use of sulphurous acid or other bleaching chemicals. Bleached oats shall be graded and designated according to the grade requirements of the standards applicable to such oats if they were not bleached, and there shall be added to, and made a part of, such grade designation the word "bleached."

CLIPPED OATS.—Clipped oats shall be oats which have the general appearance of having had the ends removed by an oat clipper. Clipped oats shall be graded and designated according to the grade requirements of the standards applicable to such oats if they were not clipped, and there shall be added to, and made a part of, such grade designation the word "clipped."

NOTE.—It will be noted that no limits are specifically stated for damage other than heat and for other grains. These are taken care of by the minimum requirements for "sound cultivated oats" in each grade. The following examples illustrate the application of the tabulation:

(a) Aside from other requirements, such as condition and general appearance and weight per bushel, a lot of oats, to grade No. 1, must contain 98 per cent "sound cultivated oats." The remaining 2 per cent may be damaged grains, foreign material, other grains or wild oats, either singly or in any combination. The only limitation on this remaining 2 per cent is that not more than one-tenth of one per cent may be heat damaged.

(b) Aside from other requirements, such as condition and general appearance and weight per bushel, a lot of oats, to grade No. 3, must contain 90 per cent "sound cultivated oats." The remaining 10 per cent may be damaged grains, foreign material, other grains or wild oats, either singly or in any combination of these factors, except that there must not be over 1 per cent heat damaged, 3 per cent foreign material or 5 per cent wild oats.

(c) Aside from other requirements, such as condition and general appearance and weight per bushel, a lot of oats, to grade No. 4, must contain 80 per cent "sound cultivated oats." The remaining 20 per cent may be damaged grains, foreign material, other grains or wild oats, either singly or in any combination of these factors, except that there must not be over 6 per cent heat damaged grains, 5 per cent foreign material or 10 per cent wild oats. The amount of these factors present can not be added so as to permit 21 per cent since grade No. 4 must contain at least 80 per cent "sound cultivated oats."
